

Blue Ash, November 28, 2017

**Subject: Price revision BMI PRESS, category 47, effective February 1st, 2018**

Dear valued customer,

The increasing price of copper together with changing labor costs require us to make a price increase/adjustment for this product category. The increase is not linear and has been kept to the strict minimum.

We thank you for your understanding and continued support.

Attached you will find a link to our new price sheet together with a summary of the price variations.
